Re: Boring Logs Omitted From the April 1997 Predesign Report
Blackwell Landfill/Response Actions
DuPage County, Illinois

Dear Mr. Bellot:

This letter is in response to your May 13, 1997 letter and our subsequent telephone conversation, in which you requested copies of borehole logs apparently omitted from the April 1997 Predesign Report. You referred to the following boreholes:

TB2A	TB11C
TB4A	TB14B
TB5A	TB16A
TB7A	TB17A
TB9A	TB19A

Please note that these boreholes were secondary holes which were drilled adjacent to the primary boreholes for the purpose of obtaining a suitable Shelby Tube soil sample for geotechnical testing. While the primary boreholes were logged, these secondary boreholes were not. Given the close proximity of the primary boreholes to these secondary sampling locations, the boring logs for the primary locations adequately describe both the primary and secondary boreholes.

EPA Region 5 Records Ctr.

248038

If you have any questions or comments about this letter, please contact me at (630) 691-5000.

Sincerely,

MONTGOMERY WATSON

Walter G. Buettner, P.E.
Supervising Engineer
